HARTLING
ONLINE-MAGIC

A warm welcome!

Let the magic begin - thank you for joining in! Here, you find some items to prepare before the show: Please print all three pages of this .pdf (colour or black and white - either will be fine).

Right on the second page you will find four cards with floral patterns. Use scissors to cut out all four cards. Go on – I'll wait :-)

Excellent! Now for the last bit: Just cut page three all the way along the dotted lines into four separate stripes.

Note: Please do keep the scissors ready, as they will be used again during the show. In addition you will also need a glue stick. Alternatively, you can also use tape.

Equipped with those things, you will be ready for the show. My friend and mentor in magic, Juan Tamariz from Spain, once told me that he likes to think of his guests not as "espectadores" ("spectators"), but rather as "espectadores" ("participants").

That sentiment will be especially true in this show: At some moments you will help determine the course of events, and with a little bit of luck, amazing things will occur in your own hands.

And the best: The whole time you can remain fully relaxed – this is a show where for once nobody has to come on stage! :-)

And with this, I wish you all the best and an excellent time – see you at the show!

Pit Hartling

P.S.: Please have this letter handy during the performance.
